## VIRTUAL WINDOW SHOPPING

### GENERAL DESCRIPTION:

Any graphic or electronic display portraying retail or professional establishments in a visual form representing a city or town streetscape or shopping mall storefront environment and the ability to provide information on behalf of an establishment portrayed through such a display.

Virtual Window Shopping is intended to be displayed on a computer or personal handheld device, using HTML and Javascript internet language as a platform.

Virtual Window Shopping is intended as a form of advertising for retail and professional establishment, their products and services only, represented in the manner stated above and in reference as related to the term and commonly associated as "Window Shopping". Virtual Window Shopping is always characteristic of a city or town streetscape or shopping mall storefront environment represented by a 3-D photographic or other graphic image having the ability to scroll and show movement, thereby having the appearance of and ability to provide "(Virtual) Window Shopping".

Storefronts may be represented through three-dimensional ("3-D") photographs or graphically, and stitched together to form a "city block" or section of a shopping mall or plaza. This representation would have the ability to move the point of view from left to right (or reverse) to give the viewer an impression of walking down a street or strolling through a mall. Actual store window displays would be visible in the view, which would represent the actual display as found in the physical storefront, and may be updated as necessary.

The viewer would have the ability to click a html link or "hot spot" on the street or mall scene which would change the scene to one of the following:

1. Open a three-dimensional moving scene of the interior of the selected store, allowing the viewer to see merchandise on sale or view the services provided;
2. Open an adjacent street scene or area of a shopping mall (representative of "going down the block");
3. Open a display showing specific details of a highlighted item or service;
4. Open a page containing an internet web site related to or provided by the specified store;
5. Open a page containing more information on the specified location (for example, a directory board representing tenants of an office building);
6. Open a link to third-party software or javascript programming enabling computer-to-telephone communication which would allow the viewer to speak with representatives from the specified store or service in order to inquire on merchandise for sale, services provided or to make a purchase of an item viewed through this display.

## DISCLAIMER:

Virtual Window Shopping does not make any representations on performing any function related to sales or being an agent on behalf of any retail store or service, and does not make any claims to perform any service related to sales, either physically or through the internet, other than to act as an advertising medium.

## SERVICE AND TRADE MARKS:

VIRTUAL WINDOW SHOPPING is currently registered by the patent inventor/applicant as a Service Mark in the State of Michigan, and pending Trademark application before the United States Trademark Office.

## BRIEF DESCRIPTION OF THE ATTACHED DRAWINGS:
